Repayment amounts assume the student paid accrued interest during the time of enrollment.

If a student has multiple loans with varying interest rates, add together the monthly payment for each loan to determine the total monthly repayment. Do the same to calculate total interest and repayment.

\* For \$3,500, number of months varies depending on interest rate: 79 months at 3.4%, 82 months at 4.5%, 85 months at 5.6%, 87 months at 6.0%, 90 months at 6.8%
