

READING AREA COMMUNITY COLLEGE
CURRICULUM GUIDE – TECHNOLOGY STUDIES (TEC.AAS) –60 credits

6 SEMESTER PLAN Catalog: 2012-13

Various credit options for technology-related electives, technical programs, prior learning, professional certifications, and military service are available for this degree. The appropriate academic plan should be determined with an advisor.

Note: If you do not need pre-college reading and writing courses, you can complete the program in six (6) semesters by following this plan. If you take classes during summer sessions, you may complete sooner.

FIRST SEMESTER

FALL SEMESTER I (8 credits)

Course	Course Description	SEM	CR	GR
COM-121	English Composition	A	3

Course	Course Description	SEM	CR	GR
ENV-130	The Environment ⁴	A	3	
SOC-130	Sociology OR	A	3	
PSY-130	General Psychology			
	Technology Course ²	A	3	
	Technology Course ²	A	3	

¹Students interested in taking CHE-150 or higher or PHY-150 or higher should take MAT-035 and then MAT-110.

²Technology courses should be part of the student's technical program credits that are approved by the student's academic advisor or assistant dean. Courses may be from concurrent technical programs (up to 20 credits) or RACC courses with the following prefixes: BIO, CHE, EUT, ENV, HEA, HAC, IFT, MTT, MAT, MET, MLT, NSC, NET, NUR, PHY, PNP, PRG, RES, and WEB. Students receiving credit for anything completed before starting this program of study may be given credits that decrease the number of Technology Courses needed. A minimum of 15 credits in one technical area is required for students to obtain a concentration of knowledge and skills.

³Students interested in taking CHE-150 or higher or PHY-150 or higher should take MAT-110.

⁴The following courses may be substituted for ENV-130: BIO-120, CHE-120, or PHY-120.
